

## **DEBENHAM PARISH COUNCIL**

### **RFO REPORT-MAY 2010**

I have contacted the DVH&PFT's chairman with regard to the fact that the Parish Council had agreed to fund the payment of vat on the purchase of the new oil tank. Mrs. Morley has now placed the order for the new tank, which should be delivered in the next few days. I also took the opportunity to remind Mrs. Morley that the Council had requested a meeting with the Trustees in order for further funding applications to be considered.

A cheque for £500 has been received from Cllr Alcock's Locality Budget. It is the contribution towards the purchase of grit bins, which can now be ordered. I would like to ask the Council's advice on how to decide who may be a designated spreader for each area as SCC needs to be informed for insurance purposes.

With the recent resignation of Mr. Gerry Baxter, the Council has to complete a new set of bank mandates which will enable the signing of cheques. These have already been requested and will hopefully be distributed at the next meeting.

The new laptop has been purchased and Cllr Baldwin will, very kindly, ensure that all necessary software have been loaded onto it before I start using it.

Mr. Martin Durie has now checked the repair to the fence and is very happy with the result.
