

Kathie,

Thank you for Richard Thurlows current email address and I will certainly be contacting him for information.

I was very sorry the way your expression of interest in the Wingfield Barnes Project said that it would solve our needs in Debenham. Which ofcourse it doesn't as the above proposed Debenham facility is to provide an increase in business and tourism, finance and entertainment for Debenham, as Richard Thurlow agrees, but with aspects of it having a far reaching involvement out of the area as well as the local community ie the Theatre & Conference centre. All the areas mentioned in my proposal are for discussion and are suggested to help Debenham businesses and facilities and help promote the Leisure Centre and provide facilities perhaps they do not have the accomodation for!

As stated previously this is still only an idea with views still being put forward and developed.

A business plan can only be formulated once this project is a lot further down the line and possible areas of funding investigated. Finance for such a large project will take time and effort if this new area of facility is to go ahead and funding used to the best ability to provide these sort of facility for such a large village as Debenham. Any help that Richard Thurlow and yourself can offer to achieve the objectives would certainly be most appreciated.

Thank you

Gerry Baxter
